Part 1

Context: You are applying for a position as office manager at an architectural firm while you wait to take your AIA exams.

1. You are considering whether to include an objective
 - a. You include objective 1.
 - b. You include objective 2.
 - c. You do not include an objective.

Your best answers for this question would be A or C. It is to your advantage to use language that indicates reader-centeredness over writer-centeredness, but it is also not always necessary to include an objective.

2. If you could include only three items from education, (for the position of manager of the architectural firm) which do you include?
 - a. 1, 7, 10
 - b. 1, 2, 10
 - c. 1, 3, 7

The best answer is A. Resumes should always highlight the information most pertinent to the job for which you are applying.

3. If you could include only three items from personal information and activities, which would you include?
 - a. 7, 8, 11
 - b. 6, 9, 10
 - c. 2, 5, 8

The best answer is A. Age is not an issue about which a potential employer can legally inquire and personal information such as political or church affiliations are not particularly appropriate. Your marital status is also not within the range of what is appropriate for a potential employer

to discuss. The activities noted in answer A indicate your involvement in school activities without ranging into information that is too personal and also highlight your managerial skills.

Part 2

Context: You are applying for graduate school and a position as a graduate research student assistantship in Georgia Tech's department of Architecture.

4. You are considering whether to include an objective.
- You include objective 1.
 - You include objective 2.
 - You do not include an objective.

B or C would be good answers for this question. B focuses directly on the background experience required for graduate work in architecture and since one of the goals of working within a school setting is for you to further your education and skill development, this objective would work. If you were applying for a job outside an educational institution, this answer would be entirely too writer-centered and inappropriate.

5. If you could include only two items from experience (for the graduate student position), which would you include?
- 2, 3, 5
 - 1, 2, 4
 - 2, 4, 5,

The best choice is C because it points to each job most related to the area of work for which you are applying.

6. If you could include only three items from personal information and activities (for the graduate student position), which do you include?
- 1, 4, 10
 - 2, 6, 7
 - 7, 8, 11

The best answer is C. The information in A and B is too personal to be appropriate. C highlights information that would be most supportive for indicating your work potential.

14. If you could include only three items from education, which do you include?
- a. 1, 4, 5
 - b. 1, 6, 7
 - c. 1, 6, 3

The best choice is C. Although answer B indicates all your experience in chemistry, C also indicates your ability to speak Spanish, which is important within this context.

15. If you could include only three items from personal information and activities, which do you include?
- a. 1, 4, 5
 - b. 2, 6, 7
 - c. 4, 7, 11
